CARDIN, MIKULSKI ANNOUNCE FEDERAL FUNDING TO PURCHASE FIRE ENGINE FOR PRINCE GEORGE'S COUNTY VOLUNTEER FIRE DEPARTMENT

WASHINGTON, D.C. – **U.S. Senators Benjamin L. Cardin** and **Barbara A. Mikulski** (both D-Md.) today announced the Morningside Volunteer Fire Department won \$280,000 in federal funding through the U.S. Department of Homeland Security's Assistance to Firefighters Grant (AFG) program to purchase a new fire engine. As a member of the Homeland Security Appropriations Subcommittee, Senator Mikulski fights each year to increase federal funding for the fire grants program. Senator Cardin is a member of the Finance and Budget committees.

"Now more than ever, we need to make sure that our first responders have the resources they need to protect our families and communities," **Senator Cardin** said. "From fires to natural disasters to possible terrorist threats, these brave men and women put their lives on the line for all of us. Federal investment in our first responders is vital because we must ensure that they have the equipment and training they need to protect us from harm and to perform their jobs safely and efficiently."

"I know how important this funding is to Maryland communities – often it's the difference between life and death. First responders protect our homes and communities, and the federal government has a responsibility to protect them by providing them with the tools they need to do their jobs safer and smarter," **Senator Mikulski** said. "Every day when our first responders report for duty, they don't know what they will face. That's why I fight every year for the equipment, training, and staffing our protectors and communities deserve."

The grant funds will allow the Morningside Volunteer Fire Department to purchase a new rescue engine, replacing a 1994 model. For more information, please contact Mike White, Chief, at 301-736-4343.

AFGP grants fund firefighting equipment, personal protection equipment, training, firefighting vehicles, firefighter/first responder safety projects, and staffing recruitment and retention, as well as public fire safety education.

Since 2001, Maryland fire departments and Emergency Medical Services (EMS) units have received more than \$93 million in AFGP funding, nearly \$16 million of which has gone to fire departments and EMS units in Prince George's County.
